St. Edward Mercy Medical Center Internal Medicine Opportunity Fort Smith, Arkansas

St. Edward Mercy Medical Center is recruiting Internal Medicine physicians to join a brand new clinic in the state-of-the-art “Centers of Excellence” facility located on the medical campus. **St. Edward Mercy** is a general acute-care **343 bed hospital**, serving a population of over 430,000. Physicians may choose limited inpatient work by utilizing the established and successful Hospitalist program. This opportunity offers a competitive compensation as well as a generous benefits package including medical, dental, disability, vacation, CME time off, malpractice coverage, pension, relocation, and much more!

St. Edward Mercy Medical Center opened its \$70 million “Centers of Excellence” in 2002 with facilities for the treatment of heart disease; women and children; and outpatient procedures. The complex includes a 55,488 square-foot Edward Mercy Heart Center offering comprehensive heart services and a 77,997 square-foot St. Edward Outpatient Center with advanced voice-activated operating room suites.

St. Edward is part of the **Mercy SafeWatch Electronic ICU Program**. Mercy Safewatch provides monitoring of more than 390 ICU beds across the Sisters of Mercy Health System. In 2010, **St. Edward** will begin using EPIC software system which will allow access to patient information with the same chart for inpatient and outpatient services. Electronic medical records provide for Computerized Physician Order Entry (CPOE) and improves both patient safety and patient outcomes.

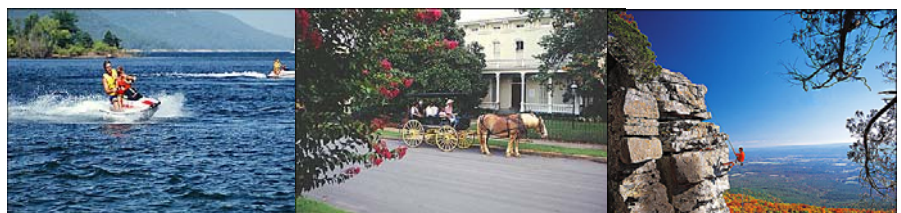

Fort Smith is one of the most dynamic places to live in the United States. Whether you like shopping, attending concerts, visiting museums, world-class libraries, enjoying the cuisine at some of the finest and most unique restaurants in the nation, fishing or swimming in beautiful clean lakes and streams or playing in our many parks, it's all readily available in **Fort Smith**. The **Fort Smith** economy has again shown its resiliency with another year of strong, steady growth. If golf is your bag, then Fort Smith has what you need in both public and private courses. The region boasts top notch public and private schools that can provide first-class instruction from pre-school through doctorate degrees offered by the **University of Arkansas Fort Smith Campus**.

With some of the finest lakes and mountains in the country, right in our backyard, families can savor the life they build here. Best of all, it's a safe and fun place to live and raise a family without all the costs and concerns of larger cities. If you or someone you know is interested in learning more about this spectacular opportunity, please feel free to call or email me your CV.
